

Collection 23/24 ————— *Made to last*

Collection 23/24

The forthcoming 2023/24 collection from Design For The People continues our proud collaboration with skilled Danish designers, who have come up with new, beautiful designs in high-quality materials.

This year, we're bringing that "hotel feel" to the home interior, with exclusive materials such as marble, textiles and burnished brass. We're also exploring the indirect light trend, which is all about creating a pleasant and intimate ambience.

Vintage Italian designs with distinctive and iconic silhouettes serve as inspiration for new, interesting lighting designs. Yet the collection remains rooted in traditional Scandinavian minimalism with classic designs, mixed materials, and shiny chrome surfaces. The focus is on recognisable shapes and geometric structures that our designers have put together in new and exciting ways.

At the heart of our collection lies a commitment to ensuring that every item reflects our dedication to both craftsmanship and longevity. As always, we strive to create timeless designs that will be treasured for years to come and which embody innovative thinking that enhances our lives and the spaces that surround us.

We are extremely proud to present the 2023/24
Design For The People collection.

*“I believe that instead
of making trendy
objects we should try
to make objects
that outlive trends”*

Asger Risborg Jakobsen

Even as a child Asger Risborg Jakobsen found joy in creating all kinds of tools that he played with in the fields and trees around his home. Later Asger chose to make his passion his way of living by studying architecture at The Royal Danish Academy in Copenhagen. After three years he felt the joy of designing fading away and needed a change.

This time, he wanted to try something completely different. Asger started studying medicine and quickly became fascinated with the architecture of the human body. He gradually rediscovered his joy of designing and now combines working in both fields. In his creative work, Asger finds inspiration in the simultaneous complexity and simplicity of nature – and he is driven by creating designs that outlive trends and that can endure everyday use over many years.

“I find lighting fascinating. It is both a practical and essential tool that enables us to unfold our lives after the sun sets. At the same time, it is an aesthetic element that affects us and our surroundings. It transforms the appearance of materials and shapes. It changes the atmosphere. Everything changes with the light.”

With his strong focus on longevity in terms of durability, functionality and aesthetics, Asger Risborg Jakobsen is not subject to short-lived trends and tendencies.

“I believe that instead of making trendy objects we should try to make objects that outlive trends. The objects we make will of course always reflect our time and in this way, nothing is genuinely timeless, but I aim to create contemporary classics.”

Asger Risborg Jakobsen
Studied architecture at The Royal
Danish Academy in Copenhagen

Based in Copenhagen, Denmark

Hill Pendant, White 2220103060

“I wanted to create a lamp that combines the delicate qualities of rice paper lanterns with the durability to endure everyday use over many years”

Asger Risborg Jakobsen

Hill

Hill is a large, geometric lampshade that fills the room without blocking the view. Created by Danish designer Asger Risborg, Hill is light as a cloud, but sharp as a rock. A lamp that is both complex and simple while creating a very soft light that spreads into the room in a calm, uniform way.

Learn more about Hill on page 114

Anker Studio

Danish design duo Anker Studio consists of Jonas Poulsen and Christian Troels Hansen. Both have been interested in creating and designing since childhood, which has resulted in a curious approach and a strong creative power in everything they do.

Jonas and Christian each take on different roles while working closely together. Their collaboration often helps them overcome the challenges that come up during the design process.

"When you're two people working together, you're forced to say what you're thinking about out loud. That way it becomes real, and it forces you to make up your mind about it to a greater extent than when it's just thoughts in your head. When you articulate your problem out loud, you often find another perspective on the solution."

For Anker Studio, good design is a design that people remember and fall in love with. Something that is part of a bigger story and that will be cherished for years. When working with lighting, Jonas and Christian find the balance between functionality and aesthetics fascinating.

"The best thing about working with lighting is that it has a large range between functionality and art. Some lamps are only functional, while some are more emotionally and aesthetically driven. The emotionally driven pieces become like an art object in the home. That's what makes the work fun. There's room for differences".

Anker Studio
Consists of designers Christian Troels
and Jonas Birkebæk Poulsen both
educated from Design School Kolding.

Based in Svendborg, Denmark

Spargo Wall, White/Brass 2320361001

Spargo

Indirect light is the driving force behind the Spargo wall light by Danish Anker Studio. The large, slightly curved shade reflects the light onto the wall and diffuses it into the room.

The shade is elegantly held by the brushed brass base.

Learn more about Spargo on page 130

ambience video

The Taido table lamp by Anker Studio consists of two geometric shapes that together create a refined silhouette. The angled, round shade is elegantly pinned on the conical base.

The lampshade can be adjusted in many directions, allowing you to change the ambience.

Furiko

The Furiko wall light by Anker Studio has a simple and elegant design language. The light reflects backwards onto the beautiful spherical shade, creating a soft and indirect light. Furiko is perfect for the hallway or bedroom where a soft light is essential.

Learn more about Furiko on page 130

Furiko Wall, White/Black 2320241003

Versale Table, White 2220075001

Versale

The Versale series by Anker Studio is the epitome of Scandinavian minimalism cut to the very core. A perfectly round shade with a uniform light surface only disturbed by the piercing frame. The whole series can easily create the perfect ambience anywhere you need a pleasant, glare-free light.

Learn more about Versale on page 105

Versale Pendant, Brown 2220053009

“Some lamps are only functional, while some are more emotionally and aesthetically driven.

*The emotionally driven pieces become like an art object in the home.
That’s what makes the work fun”*

Rune Balle & Christian Bjørn
Consists of designers Christian Bjørn and Rune Balle.
The duo has carried out a large number of creative
design tasks for both national and international
clients

Based in Copenhagen, Denmark

Learn more about
the designers

*“Quiet is better than loud.
We like to create designs
that are very simple.
Designs that people
feel safe about”*

Bjørn+Balle

The designers combine minimalistic Scandinavian design with international trends. It's about image creation and recognizability. The overall identity of the product is its form, function, details, structure and materials, which all comes together. A product never stands alone but is part of an environment where the story being told supports the design.

Bjørn + Balle have both carried out a large number of design tasks for both national and international clients at many different areas, such as product design, furniture design, interior design, identity programs and exhibitions, and together they have great success with lighting design.

Bjørn + Balle has delivered a wide range of innovative technical solutions for the industry, as well as beautifully designed products for the consumer market.

Arcello Portable, Antrazite 2220155050

Arcello

With Arcello Danish design duo Bjørn + Balle has created an elegant portable light with a pleasant, downward facing light. The design is simple, yet distinct with a beautiful, uniform anodized surface from top to bottom. The lamp is easily charged with the included USB cable.

Learn more about Arcello on page 124

Arcello Portable, Brown brass 2220155061

Norbi

Danish design duo Bjørn + Balle has created Norbi. A minimalist pendant with an industrial touch. The matt shade is contrasted by a brushed steel detail that enables the shade to move up and down. Moving the shade up creates a diffused light that spreads into the room, and moving it further down centres the light downwards - creating the perfect lighting for different situations.

Learn more about Norbi on page 117

Bønnelycke MDD
A Multi-Disciplinary Design company
with a desire to work constructively and innovatively

Based in Aarhus, Denmark

Learn more about
the designer

*“Great design is giving
people what they want,
and a little bit more”*

Bønnelycke MDD

Bønnelycke MDD was established in 1988. Driven by a nosurpressable urge and desire to work constructively and innovatively, Bønnelycke mdd started his career with the design of lamps, furniture and interior decorating.

Quickly, he became known as an unconventional architect with no whims and fancies. His ability to challenge and optimize the manufacturing process itself is to be found in Henrik's original professional background as a toolmaker. "It could be fun" and "of course it can be done" – are phrases often used in his company.

From day one, the core of his work has been to create products simply because they are needed. Designs by Bønnelycke MDD grow out of a specific need or requirement expressed by the customer – and by the general public as such. This has resulted in a comprehensive portfolio of projects and designs allowing the company to slowly but steadily expand over the years.

Nomi Wall, Black 2220171003

Nomi Floor, Black 2220194003

Nomi 5-pendant, Black 2220163003

Nomi

In the Nomi series, there is an obvious ease between the simple frame and adjustable lamp head. In this series, designer Henrik Bønnelycke has combined the minimalistic shape with innovative LED technology in a very convincing way. A beautiful aesthetic design language with the slim frame and robust base makes Nomi admirable, and will surely create joy year after year.

Learn more about Nomi on page 88

Kaito Pro

With Kaito Pro, Bønnelycke MDD has created a ceiling fixture that breaks with tradition. A ceiling fixture where design and innovation merge into something greater. The shape stands out as sharp, modern and as a uniform, luminous surface. The functional kip joint, made from brass, adds an elegant superiority to the design.

Learn more about Kaito Pro on page 135

Charlotte Høncke

Learn more about
the designer

Charlotte Høncke
Holds a degree from Aarhus School
of Architecture in Industrial Design

Based in Aarhus, Denmark

"I like exploring new materials, shapes and techniques and I never choose the easy way out"

Charlotte Høncke has always had a great passion for design and knew from a very early age that she wanted to pursue a carrier in design or architecture. In 2002 she graduated from Aarhus School of Architecture in Industrial Design, and a few years later she chose to become self-employed working with design full time.

Charlotte finds inspiration everywhere she goes – from nature, architecture or travelling the world. New ideas often require new methods for designing and creating which sometimes forces her to explore new ways.

"I like exploring new materials, shapes and techniques and I never choose the easy way out. That sometimes causes challenges, both for me as a designer but also for the manufacturer. But exploring new methods is also what makes the job diverse and exciting."

Lighting design is something that Charlotte Høncke finds particularly interesting because of its versatility and the need for balancing functionality with aesthetics.

"Besides having to provide the right, functional light, I also think lamps need to be beautiful when turned off. Lamps are one of the elements that bring most atmosphere into the interior, and I personally like to have many different types of lamps in my home to create just the light and atmosphere I want."

Fabiola Pendant, Black/Brass 2220223003

Fabiola Table, Black/Brass 2220245003

Fabiola

The Fabiola table lamp by Danish designer Charlotte Höncke draws inspiration from

vintage Italian design and effortlessly unites past classics with present modernity.

The design is elegant and sculptural, underlined by the placement of the shade, which ensures a soft, indirect light. Brass details add a luxurious look and feel.

Learn more about Fabiola on page 80

Rochelle, Black 2320301003

Rochelle

The Rochelle series by Danish designer Charlotte Höncke has a modern Italian design language with a slender, sculptural lamp head.

The adjustable lamp head can be directed in any way you want, making the lamp perfect next to your bed or above your kitchen counter.

Learn more about Rochelle on page 91

Rochelle Floor, Black 2320314003

“With Rochelle, I wanted to create a functional lamp series with a sculptural and organic design expression.

The characteristic shade has a simple cylindrical shape with a distinctive cutout that provides a pleasant, diffused light.”

Charlotte Höncke

ambience video

Rochelle Pendant, Black 2320283003

Caché Table, Black 2220275003

Caché

With Caché, Danish designer Charlotte Høncke has created a table lamp with an intriguing and eye-catching design. The lamp is made from two perfectly round shades, united elegantly by a solid marble base. Caché creates an interesting and playful ambience where the light is reflected back and forth between the two shades.

Learn more about Caché on page 125

“To me, success is when my design brings joy in the everyday lives of people”

Learn more about
the designer

Maria Berntsen
Holds degrees from both
The Royal Danish Academy Art
and L'Ecole d'Architecture

Based in Copenhagen, Denmark

Maria Berntsen

With her own design studio in Copenhagen, Maria Berntsen has since 1992 focused on architecture and design. Maria Berntsen is a well-established name in the design industry and has over the years collaborated with a wide range of Danish and international companies, where her extensive experience has resulted in many successful designs.

“At the start of a new project, I look for an idea with nerve, functionality and identity. By modelling and visualizing, I test the idea, how it might be used, and its presence.

Good design communicates and establishes a dialogue with the receiver. Design is not just about functionality – it is as much about the emotional connection and impact. To me, success is when my design brings joy in the everyday lives of people”

Glossy

Glossy is the epitome of tasteful and sophisticated design. Danish designer Maria Berntsen has created a lamp series that oozes of Nordic minimalism, where the combination of brushed steel and opal white glass contributes to an incredibly elegant design. Glossy is named after the shiny surface of the opal white glass, which lets a soft and comfortable light shine through.

Learn more about Glossy on page 81

"Glossy is my favourite lamp. I feel that it successfully balances form and a mix of materials. The entire construction and expression of the lamp is simple and timeless.

Maria Berntsen

Shapes

The Shapes series by Danish designer Maria Berntsen draws inspiration from elegant, organically shaped jewellery. The opal glass shade has a unique, asymmetrical form that plays beautifully together with the shiny brass base and creates a refined and intriguing look. The lamp emits a soft, diffused light through the mouth-blown glass shade.

Learn more about Shapes on page 92

Studio Mavro//Lefèvre by Sofie Lefèvre

"I generally like challenges. Challenges create a sense of suspension, even though I know that it's almost always possible to find a solution – it's really just a matter of time"

Learn more about
the designer

Sofie Lefèvre
Holds a degree in Innovation
Design from Royal College of Art

Based in Copenhagen, Denmark

The road to becoming a designer has not been straight ahead for Sofie Lefèvre. She started studying medicine, but after a year changed her course and continued her education within the design field. Several years in London and a degree in Innovation Design from Royal College of Art gave her hands-on experience and the drive to pursue a career within design.

Working with lighting design comes naturally to Sofie. She understands and emphasizes the impact light has on our lives and is fascinated by the way light can change the interior: *"I find it very interesting working with atmospheres created by light. There are so many aspects where my inner child can be released, playing with angles, materials and openings to create the wanted reflection or diffusion of light."*

Takai Table, Brown Marble 2320445018

Takai

The Takai series by Studio Mavro//Lefèvre by Sofie Lefèvre has a large fabric shade with a beautiful shape that invites you to look at it from many different angles. The combination of the flax linen shade and the burnished brass creates a very soft and warm design language.

Mademoiselles Table, White 2220405001

Watch the full
ambience video

Mademoiselles Table, Black 2220405003

Mademoiselles

Mademoiselles by Danish design Studio Mavro//Lefèvre by Sofie Lefèvre has a fun and light-hearted design expression where the round, oversized shade is balanced by the solid, marble base. Light is reflected upwards onto the bottom of the shade, creating a soft, indirect ambience.

Learn more about Mademoiselles on page 126

Navone

Navone is designed by Danish design Studio Mavro//Lefèvre by Sofie Lefèvre. The overall shape of the shade is soft and round, yet the very subtle curved bottom adds a new interesting dimension that transforms the lamp into more than just a sphere. The brass details add a contemporary touch, underlining the suspended lightness of the lamp.

Learn more about Navone on page 115

“The design of Navone is quite timeless, and I love how the suspension becomes an extension of the shape of the glass – two shapes in one harmonic interplay”

Sofie Lefèvre

Der tages forbehold for ændringer m.h.t. tekniske specifikationer, design og collistørrelser.
Vi förbehåller oss för ändring med hänsyn till tekniske specifikationer, design och collistorlek.

We reserve the right to changes as to technical specifications, design and number of packages.

Wir nehmen Vorbehalt für Änderungen bezgl. technischer Spezifikationen, Design und Verpackungseinheiten.

Nous nous réservons le droit de modifier toute documentation technique, design et colisage.

We behouden ons het recht om technische specificaties, ontwerp en verpakkingsaantal te wijzigen zonder voorafgaande kennisgeving.
